# José Luis López López

## Computer Engineering Student

Granada, Spain | +34 659 74 57 79 | jossseluuu@gmail.com

## PROFESSIONAL PROFILE

Fourth-year Computer Engineering student at the University of Granada, driven by a desire to understand in depth how systems work and to turn that curiosity into tangible projects. I combine my studies with a strong interest in web development, artificial intelligence and cybersecurity, applying programming to personal initiatives such as developing bots for "openScope", an air traffic control simulator. My time in the US university system has strengthened my independence and adaptability, skills I now want to bring to a demanding and dynamic work environment, adding value from day one.

## EDUCATION

### Bachelor's Degree in Computer Engineering

2023 – Present

**University of Granada, Spain**

**4th** year | **7.744** / 10 grade average | **7** Honours with Distinction | **174** / 240 ECTS completed

- Expected progress: from January 2027, only the Final Degree Project (thesis) will remain.
- "Honours with Distinction" (Matrícula de Honor) is the highest grade in the Spanish university system, awarded to a limited number of top students per course.

### International Mobility Program

Aug 2025 – May 2026

**University of Montana · Missoula, Montana, United States**

**3.64** GPA Fall 2025 | **3.74** GPA Spring 2026 | **3.68** / 4.0 cumulative GPA

- **Dean's List in both semesters** (Fall 2025 and Spring 2026), awarded to students with a semester average of 3.50 or higher and no grade below B.
- Full two-semester academic year at a US public university, with all teaching, coursework, assessments and exams entirely in English.
- Advanced coursework in software engineering, algorithms, databases and SQL, data analytics, web application development and user interface design.

### Spanish Baccalaureate in Science · Health Sciences track

2021 – 2023

**IES La Madraza · Granada, Spain**

- Scientific education in Mathematics, Biology and Chemistry, the foundation of the analytical and quantitative reasoning later applied to engineering.
- Passed the Spanish university entrance examination (PEvAU) in 2023.

## ADDITIONAL TRAINING

### TOEFL · English certificate, B2 level

Dec 2024

**ETS (Educational Testing Service)**

### Elementary Music Diploma · Transverse Flute

2013 – 2018

**Ángel Barrios Conservatory of Music · Granada** · Official training in music theory and instrument, completed alongside compulsory schooling

### Microsoft Learn · 30 learning paths and 95 modules (69 hours)

2026

**Microsoft**

- **Cybersecurity:** SC-200 exam preparation paths (Microsoft Defender for Endpoint, Microsoft 365 Defender and Copilot for Security), defending against cyberthreats with Microsoft Defender XDR, and deploying Microsoft Security Copilot.
- **AI and data:** machine learning with Python, AI apps and agents on Azure, generative AI, responsible AI and web accessibility.
- **Verifiable Microsoft Learn transcript**

## EXPERIENCE

### Faculty Student Delegate and Student Representative
Dec 2024 – May 2026

**University of Granada**

- Revived the Student Council (Delegación de Estudiantes), which had been inactive for some time, and built an eleven-person team: delegate, deputy delegate, treasurer, deputy treasurer, secretary, deputy secretary and coordinators for academic affairs, activities, communication, finance, and infrastructure and services.
- Represented more than 900 students on the Faculty Board, the Governing Committee and the Committee for Outreach, Students and Inclusion, as well as in meetings with the Dean's team and members of the Faculty's governing council.
- Co-organised activities with the Faculty, such as the basketball and volleyball tournaments of the Rector's Trophy, the 3rd University League and a visit to Telefónica's 42 Málaga coding campus.
- Proposed biannual meetings between each degree's coordinators and its class delegates to speed up communication with students.
- Represented the Faculty at national forums and student representation associations, such as AEALCEE (Economics and Business) and RITSI (Computer Engineering).

### UM Catering
Jan 2026 – May 2026

**University of Montana · Missoula, United States**

- Worked in the kitchen of the university's catering service to learn first-hand how work is organised in the United States: shifts, team coordination, service pace and quality standards, all in English.
- An outstanding experience in an excellent and highly diverse work environment, where I made great friends.

## TECHNICAL SKILLS

**Programming:** C++ (STL, dynamic memory), Java, Python (NumPy, pandas, Matplotlib, scikit-learn), JavaScript, PHP, SQL; object-oriented programming; data structures; algorithm design (divide and conquer, greedy algorithms, dynamic programming, backtracking).

**Databases and business intelligence:** MySQL, Oracle, PostgreSQL; entity-relationship modelling and normalisation; database administration; distributed databases; data warehousing and OLAP systems; Power BI, Tableau.

**Web development:** HTML5, CSS3, JavaScript, PHP, Node.js; interface and user experience design (Figma); web accessibility (WCAG).

**Artificial intelligence and data science:** supervised and unsupervised learning (regression, classification, clustering); deep learning fundamentals; heuristic search and intelligent agents; generative AI, RAG and prompt engineering; Azure AI services; Jupyter.

**Systems and architecture:** Linux (Bash), Windows; process management and system calls; concurrent programming (threads, semaphores, monitors); computer architecture and organisation; assembly language.

**Software engineering and information systems:** requirements analysis; UML modelling; information systems analysis and design; automata theory and formal languages.

**Cybersecurity:** Microsoft Defender XDR, Microsoft Defender for Endpoint, Microsoft Entra ID Protection, Microsoft Security Copilot; incident detection, investigation and response.

**Tools:** Git, GitHub, Docker, Visual Studio Code, Figma; Microsoft 365 (Word, Excel, PowerPoint) and Microsoft 365 Copilot.

## LANGUAGES

**Spanish:** native.

**English:** B2 (TOEFL) + a full academic year and personal and work experience in the United States.

**French:** basic.

## PROFESSIONAL COMPETENCIES

**Leadership:** I launch projects from scratch and build teams, as when I revived the Student Council.

**Performance under pressure:** I keep excellent results while balancing studies, representation and work.

**Problem solving:** I find the root cause and choose the most effective of several solutions.

**Initiative and proactivity:** I spot improvements and propose solutions without waiting to be asked.

**Communication and negotiation:** I make the case for proposals and reach agreements.

**International adaptability:** I quickly adapt to new countries, cultures and work environments.

**Self-directed learning:** I learn on my own initiative and apply it to personal projects.

**Working in diverse teams:** I collaborate in multicultural settings and put the shared goal first.
